

Air Reps has unparalleled access to many of the world’s leading HVAC manufacturers and their unique technologies.

AAF FLANDERS	Advanced filtration including extended media cartridges, HEPA, carbon, gas-phase BIBO and other specialty filter containment housings.
ABSOLUTAIRE	Custom direct fired industrial heaters and make-up air units.
ADDISON	Specializing in DOAS units both packaged and split. Conventional dx with gas heat or Heat Pump.
AEGIS	Reliable shaft grounding protection for large AC and DC motors.
AIR₂O	Packaged rooftop indirect evaporative cooling units with heat pump, cooling only and gas heat options.
ANNEXAIR	Custom air handlers and packaged DX solutions, casing construction from recycled materials for up to 40% less unit weight.
BACHARACH	Advanced refrigerant monitoring for VRV systems and indoor chiller room applications.
BALTIMORE AIRCOIL COMPANY	Cooling towers, fluid coolers hybrid towers and ice storage systems.
BASX	Free cooling chillers, indoor cooling units, modular data centers, cleanroom solutions, operating room ceiling systems, custom air handlers, fan array retrofits and vertical self-contained systems, high efficiency data center cooling solutions including packaged indirect DX units, custom air handlers, and modular OR ceiling systems.
BERNER INTERNATIONAL	Architectural, commercial and industrial air doors and curtains.
BLENDER PRODUCTS	Static mixing technology to eliminate thermal stratification, nuisance freeze stat trips and frozen coils.
BLUE DUCT	Underground self insulated duct system that is durable and problem-free. Engineered to protect against corrosion, mold/mildew, radon, rust and air leaks.
BROAD USA	Absorption chillers capable of providing hot and cold water generated from steam, solar, gas, diesel, recycled oil, biogas or waste heat energy.
CGC	Hybrid heat pumps in many configurations such as, vertical stack, classroom, console and horizontal ceiling units.
COIMA USA	Dust and Paint collection systems (including devices and ducting systems).
CONDAIR	Complete line of humidification equipment including electric, gas, steam and adiabatic cooling systems (formerly Nortec).
DAIKIN APPLIED	Complete line of commercial HVAC products from 3-2700 tons including rooftop systems, water source heat pumps, custom air handling units and water chillers.
DAIKIN AIR COMFORT	Variable Refrigerant Volume systems available for air and water-cooled applications, unified heat recovery or heat pump condensing units with inverter compressors with duct free and ducted fan coil options. Complete line of mini-split systems.

OUR PRODUCTS

Air Reps has unparalleled access to many of the world’s leading HVAC manufacturers and their unique technologies.

As a result, we have the rare ability to investigate several scenarios during the early design phase of a project. This collaborative process may involve visits to our manufacturers’ factories or on-site design meetings to collectively develop the optimum solution.

OREGON

DATA AIRE	Complete data center line of CRAC units with controls, offered in vertical and horizontal configurations. Cooling options include DX with condensing units, chilled water and water-cooled with dry-coolers.
DYNAMIC AIR	High-efficiency filtration utilizing non-ionizing, polarized media.
EASYWATER	Low chemical and NO chemical water treatment solutions for all water system types including: domestic hot water, closed loop heating and cooling water, open loop condenser water systems, sediment collection, softeners, and Reverse Osmosis.
FLOW CONTROL INDUSTRIES	High performance pressure-independent control valves ranging from ½" to 8".
GOVERN AIR	Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons.
HAYS	Valves and valve kits.
HUNTAIR	Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies.
IAC ACOUSTICS	Sound attenuation devices for commercial and industrial industries.
ISO-AIRE	Mobile recirculation and filtration units utilizing HEPA filters and UV light for use in healthcare, government, and education settings.
JAGA	Trench heating and cooling, convectors, and fan coils.
KELVION	Plate, shell and tube, finned tub and refrigeration heat exchangers and modular cooling towers.
LAKOS	Centrifugal separators, sand filters and water filtration systems.
MAMMOTH	Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative-cooled condensing.
MODINE	Gas fired, steam and electric make-up air and heating equipment.
NAILOR INDUSTRIES	VAV, fan-powered, and induction boxes, horizontal and vertical fan coils, fire, smoke, and air control dampers, louvers, grills, grates, and diffusers.
NELSON HEAT TRACE	Tailored cable systems for maintenance and freeze protection.
NUCLIMATE	Energy efficient chilled beams and pool dehumidification units.
NUTECH	Complete automatic and manual balancing valves for hydronic heating and chilled water applications.
OXYGNE8	Indoor low profile DOAS solutions.
PARAGON CONTROLS	Complete line of outside air measurement stations in addition to flow, pressure transducers, indication meters and calibration tools.
PERMALERT	Leak detection location systems that help keep mission critical facilities and production on-line.
PHOENIX CONTROLS	Sound airflow and pressurization control systems for critical environments.

OREGON

PHP SYSTEMS	Pipe support systems and VRV equipment supports.
POOLPAK	Pool ventilation and heat recovery systems designed to control pool water temperature and space comfort conditions.
POTTORFF	Louvers, air control dampers, backdraft dampers, UL Rated, Fire Smoke and Smoke Damper.
Q DUCT	Pre-insulated outdoor duct system designed and detailed to be shipped in pieces to the project site ready for installation.
Q-PAC	ECM fan array solution for custom air handlers and retrofit applications.
QMARK	Air Circulators and baseboard, unit, portable, and wall heaters.
RAE COILS	Standard and custom coils including hot and chilled water, steam, dx, and heat pump. Run-around loop solutions too.
RENEWAIRE	Packaged ventilation, energy recovery and dedicated outdoor air units.
RIPTIDE	KPI-based building portfolio management system that allows for detailed trending and predictive maintenance. Riptide works with your existing control system providing alerts based on your predefined rules.
RUNTAL RADIATOR	Hydronic and electric radiant heaters for residential tower, commercial and industrial use.
SYSTECON	Factory assembled, modularized pump packages, central chilled water, and co-gen plants. Systecon will design and build central plant systems complete with chillers, cooling towers, boilers, piping, pumps and central plant controls.
TAMCO	Thermally insulated, maintenance free airfoil control, backdraft and multizone dampers.
TECHNICAL SYSTEMS	Standard and custom chilling and heat pump solutions. Air-to-water and DX splits. Chillers, Condensers, Condensing Units, and Fluid Coolers.
TEMTRON	Line of custom air handling units, fan coil units, and triple deck multi-zone units featuring FC, plenum fan and Fanwall Technology.
THERMAL CORPORATION	Custom air handling units, fan coils, air-cooled condensers, air columns and blower coils.
TRANS-COIL	Line reactors and protection for VFDs in commercial and industrial settings.
TWIN CITY FAN	Full-service ventilation products for light industrial applications including energy recovery units, make-up air systems, kitchen hoods, and SupremeFan supply and exhaust products.
UNITED COOL AIR	Full-service provider of custom HVAC systems utilizing the latest technologies.
UV RESOURCES	Full line of UV-C products for the HVACR industry.
VENMAR	Custom energy and heat recovery ventilators and integrated air handling units. Options include Fanwall Technology, enthalpy wheels, plate heat exchangers and heat pipe technology.
VENTROL	Comprehensive range of air handling solutions utilizing integrated frame construction, modular configurations or knock-down units for field assembly where required.
