

SPOKANE OFFICE

AirReps has unparalleled access to many of the world's leading HVAC manufacturers and their unique technologies.

AAF FLANDERS	Advanced filtration including extended media cartridges, HEPA, carbon, gas-phase BIBO and other specialty filter containment housings.
ABOVEAIR	Mission Critical Equipment for precision cooling equipment. It provides the flexibility that today's 7x24 mission critical applications demand.
ABSOLUTAIRE	Custom direct fired industrial heater and make-up air units.
ACT	ACT Advanced Cooling Technologies, is a premier thermal management solutions company. They specialize in providing performance and cost optimized thermal management technologies for diverse markets to meet unique needs. Air to Air heat pipe heat exchanger products are energy efficient options for HVAC systems and industrial processes.
ADDISON	Semi-custom, packaged units from 3 to 70 tons and 500 to 20,000 CFM, including, packaged air or water source heat pumps, water-to-water units, split-system air handlers and condensing units.
AIR MONITOR	Airflow measurement solutions provider for commercial HVAC.
BALTIMORE AIRCOIL COMPANY	Cooling towers, fluid coolers hybrid towers and ice storage systems.
BERNER INTERNATIONAL	Architectural, commercial and industrial air doors and curtains.
BLUE DUCT	Underground self insulated duct system that is durable and problem-free. Engineered to protect against corrosion, mold/mildew, radon, rust and air leaks.
BRASCH	Electric heaters.
CDI	Custom roof curbs and retrofit curb adapters available with integral vibration isolation and/or seismic conformance.
CGC	Hybrid heat pumps in many configurations such as vertical stack, classroom, console and horizontal ceiling units.
CLIMACOOL	Designs and manufactures modular air and water cooled chillers for commercial systems including straight cooling, heat pump, heat recovery, free cooling and geothermal systems.
CLIMATE WIZARD	Indirect evaporative air conditioning products for commercial and industrial use.
COIMA USA	Dust and Paint collection systems (including devices and ducting systems).
COLMAC	Colmac heat pump water heaters offer commercial and industrial users of sanitary hot water an energy efficient means of heating water to temperatures as high as 185°F (85°C) in a single pass.
CONDAIR	Complete line of humidification equipment including electric, gas, steam and adiabatic cooling systems (formerly Nortec).
DADANCO	Active chilled beams, induction units, and infusers.
DAIKIN APPLIED	Complete line of commercial HVAC products from 3-2700 tons including rooftop systems, water source heat pumps, custom air handling units and water chillers.

OUR PRODUCTS

As a leader in commercial HVAC design and engineering, AirReps can connect you with the industry's leading manufactures and cutting-edge technologies to match your project's needs and requirements.

SPOKANE OFFICE

EASYWATER Low chemical and NO chemical water treatment solutions for all water system types including; domestic hot water, closed loop heating and cooling water, open loop condenser water systemes, sediment collection, softeners, and Reverse Osmosis. ECOCHILLERS Specializes in efficient air-cooled chiller and air source heat pumps in sizes ranging from 50 to 500 tons. FLOW CONTROL INDUSTRIES High performance pressure-independent control valves ranging from ¾" to 8". Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons. HAYS Valves and valve kits. HUNTAIR Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies. HUNTER INDUSTRIAL FANS High volume, low speed paddle fans with gearless direct drive motors, constructed with aerospace lightweight materials. HYDROMX Plate, shell and tube, finned tub and refrigeration heat exchangers and modular cooling towers. KCCH FILTERS Air filtration including pleated, extended media cartridges, HEPA, carbon, gasphase and specialty filter containment housings. LAKOS Centrifugal separators, sand filters and water filtration systems. MAMMOTH Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative cooled condensing. MAS Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative cooled condensing. MODINE Gas fired, steam and electric make-up air and heating equipment. Designs and manufactures a portfolio of specialty chillers and high-density computer cooling systems. MUNTERS Line of custom heat recovery air handling equipment including heat pipes, heat wheels and make-up air units. NYLE WATER NYLE WATER NYLE MATER NYLE MATER NYLE MATER NYLE MATER NYLE MATER	DAIKIN AIR COMFORT	Variable Refrigerant Volume systems available for air and water-cooled applications; unified heat recovery or heat pump condensing units with inverter compressors with duct free and ducted fan coil options. Complete line of mini splits.
types including: domestic hot water, closed loop heating and cooling water, open loop condenser water systemes, sediment collection, softeners, and Reverse Osmosis. ECOCHILLERS Specializes in efficient air-cooled chiller and air source heat pumps in sizes ranging from 50 to 500 tons. FLOW CONTROL INDUSTRIES High performance pressure-independent control valves ranging from ½" to 8". Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons. HAYS Valves and valve kits. HUNTAIR Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies. HIgh volume, low speed paddle fans with gearless direct drive motors, constructed with aerospace lightweight materials. HYDROMX Energy saving heat transfer Nanofluid. Increases heat transfer while providing protection against freeze, corrosion, scale, and bacteria. JAGA Trench heating and cooling, convectors, and fan coils. KELVION Plate, shell and tube, finned tub and refrigeration heat exchangers and modular cooling towers. KOCH FILTERS Air filtration including pleated, extended media cartridges, HEPA, carbon, gasphase and specialty filter containment housings. LAKOS Centrifugal separators, sand filters and water filtration systems. MAMMOTH Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative cooled condensing. MAS Custom air handlers. MODINE Gas fired, steam and electric make-up air and heating equipment. MOTIVAIR Designs and manufactures a portfolio of specialty chillers and high-density computer cooling systems. MUNTERS Line of custom heat recovery air handling equipment including heat pipes, heat wheels and make-up air units. NAILOR INDUSTRIES NYLE WATER Nyle has been offering 40 years of experience building potable water heat	DYNAMIC AIR	High-efficiency filtration utilizing non-ionizing, polarized media.
ranging from 50 to 500 tons. FLOW CONTROL INDUSTRIES GOVERNAIR Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons. HAYS Valves and valve kits. Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies. HUNTER INDUSTRIAL FANS High volume, low speed paddle fans with gearless direct drive motors, constructed with aerospace lightweight materials. Energy saving heat transfer Nanofluid. Increases heat transfer while providing protection against freeze, corrosion, scale, and bacteria. JAGA Trench heating and cooling, convectors, and fan coils. OXYGEN8 Indoor low profile DOAS solutions.	OXYGEN8	Indoor low profile DOAS solutions.

SPOKANE OFFICE

POOLPAK	Pool ventilation and heat recovery systems designed to control pool water temperature and space comfort conditions.
POTTORFF	Louvers, air control dampers, backdraft dampers, UL Rated, Fire Smoke and Smoke Damper.
Q DUCT	Pre-insulated outdoor duct system designed and detailed to be shipped in pieces to the project site ready for installation.
QMARK	Air Circulators and baseboard, unit, portable, and wall heaters.
RAE COILS	Standard and custom coils including hot and chilled water, steam, dx, and heat pump. Run-around loop solutions too.
RENEWAIRE	Packaged ventilation, energy recovery and dedicated outdoor air units.
SECUREAIRE	Electronically enhanced air purification.
SUPERIOR RADIANT HEATERS	Efficient indoor and outdoor infrared heaters.
тамсо	The leader in innovative damper design. They are the first manufacturer to offer a thermally insulated line of products. They are the only maintenance-free dampers available on the market.
TECHNICAL SYSTEMS	Standard and custom chilling and heat pump solutions. Air-to-water and DX splits. Chillers, Condensers, Condensing Units, and Fluid Coolers.
TEMTROL	Line of custom air handling units, fan coil units and triple deck multi-zone units featuring FC, plenum fan and Fanwall Technology.
THERMAL CORPORATION	Custom air handling units, fan coils, air cooled condensers, air columns and blower coils.
TURNTIDE	KPI-based building portfolio management system that allows for detailed trending and predictive maintenance. Riptide works with your existing control system providing alerts based on your predefined rules.
VENMAR	Custom energy and heat recovery ventilators and integrated air handling units. Options include Fanwall Technology, enthalpy wheels, plate heat exchangers, and heat pipe technology.
VENTROL	Comprehensive range of air handling solutions utilizing integrated frame construction, modular configurations or knock-down units for field assembly where required.
VIBRO ACOUSTICS	Complete line of standard and custom vibration isolators, seismic restraint systems and floating floors.
XETEX	Energy Recovery custom air handlers and packaged dx solutions.
ZEHNDER RITTLING	Hydronic heating, radiant heating and cooling.

Control Product Group

DANFOSS	World renowned for superior quality, service and price, Danfoss produces a complete line of variable frequency drives for fans and pumps in HVAC applications. Our local support ensures successful projects every time.
EBTRON	Precise control of air flow rates is essential for the successful operation of today's high performance buildings. Ebtron thermal dispersion airflow measurement products provide the accuracy, repeatability and reliability necessary to ensure that these objectives are satisfied and maintained.
MSA	As the world's largest safety company, MSA provides the best gas and refrigerant leak detection equipment, featuring very stable and highly selective photo-acoustic infrared detection technology.
ONICON	ONICON manufactures highly accurate flow meters and energy measurement systems (BTU meters) for water, steam and gas, which are ideally suited for HVAC, municipal water and process applications.
SAGE	Sage Metering manufactures high performance mass flow meters which measure the flow rate and consumption of gases. Frequently used for energy management as well as for regulatory compliance.
TSI	TSI is acknowledged as the industry leader in controls for Hospital Isolation Rooms, Fume Hood Control, and Laboratory Room Pressure Control.
