

AirReps has unparalleled access to many of the world’s leading HVAC manufacturers and their unique technologies.

AAF FLANDERS	Advanced filtration including extended media cartridges, HEPA, carbon, gas-phase BIBO and other specialty filter containment housings.
ABOVEAIR	Mission Critical Equipment for precision cooling equipment. It provides the flexibility that today’s 7x24 mission critical applications demand.
ABSOLUTAIRE	Custom direct fired industrial heater and make-up air units.
ACT	ACT Advanced Cooling Technologies, is a premier thermal management solutions company. They specialize in providing performance and cost optimized thermal management technologies for diverse markets to meet unique needs. Air to Air heat pipe heat exchanger products are energy efficient options for HVAC systems and industrial processes.
ADDISON	Semi-custom, packaged units from 3 to 70 tons and 500 to 20,000 CFM, including, packaged air or water source heat pumps, water-to-water units, split-system air handlers and condensing units.
ANNEXAIR	Custom air handlers and packaged DX solutions, casing construction from recycled materials for up to 40% less unit weight.
BACHARACH	Advanced refrigerant monitoring for VRF systems and indoor chiller room applications.
BALTIMORE AIRCOIL COMPANY	Cooling towers, fluid coolers hybrid towers and ice storage systems.
BERNER INTERNATIONAL	Architectural, commercial and industrial air doors and curtains.
BLUE DUCT	Underground self insulated duct system that is durable and problem-free. Engineered to protect against corrosion, mold/mildew, radon, rust and air leaks.
CGC	Hybrid heat pumps in many configurations such as vertical stack, classroom, console and horizontal ceiling units.
COIMA USA	Dust and Paint collection systems (including devices and ducting systems).
CONDAIR	Complete line of humidification equipment including electric, gas, steam and adiabatic cooling systems (formerly Nortec).
DAIKIN AIR COMFORT	Variable Refrigerant Volume systems available for air and water-cooled applications; unified heat recovery or heat pump condensing units with inverter compressors with duct free and ducted fan coil options. Complete line of mini splits.
DAIKIN APPLIED	Complete line of commercial HVAC products from 3-2700 tons including rooftop systems, water source heat pumps, custom air handling units and water chillers.
DYNAMIC AIR	High-efficiency filtration utilizing non-ionizing, polarized media.

OUR PRODUCTS

As a leader in commercial HVAC design and engineering, AirReps can connect you with the industry’s leading manufactures and cutting-edge technologies to match your project’s needs and requirements.

BELLEVUE OFFICE

EASYWATER	Low chemical and NO chemical water treatment solutions for all water system types including: domestic hot water, closed loop heating and cooling water, open loop condenser water systems, sediment collection, softeners, and Reverse Osmosis.
ECOCHILLERS	Specializes in efficient air-cooled chiller and air source heat pumps in sizes ranging from 50 to 500 tons.
EPIC FANS	High volume, low speed area ceiling fans.
FLOW CONTROL INDUSTRIES	High performance pressure-independent control valves ranging from ½" to 8".
GOVERNPAIR	Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons.
HAYS	Valves and valve kits.
HUNTAIR	Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies.
IAC ACOUSTICS	Sound attenuation devices for commercial and industrial industries.
JAGA	Trench heating and cooling, convectors, and fan coils.
KELVION	Plate, shell and tube, finned tub and refrigeration heat exchangers and modular cooling towers.
LAKOS	Centrifugal separators, sand filters and water filtration systems.
MAMMOTH	Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative cooled condensing.
MODINE	Gas fired, steam and electric make-up air and heating equipment.
MUNTERS	Line of custom heat recovery air handling equipment including heat pipes, heat wheels and make-up air units.
NAILOR INDUSTRIES	VAV, fan-powered, and induction boxes, horizontal and vertical fan coils, fire, smoke, and air control dampers, louvers, grills, grates, and diffusers.
NYLE WATER HEATING SYSTEMS	Nyle has been offering 40 years of experience building potable water heat pumps. Nyle can provide heat pump water heater solutions for any size building.
OXYGEN8	Indoor low profile DOAS solutions.
POOLPAK	Pool ventilation and heat recovery systems designed to control pool water temperature and space comfort conditions.
Q-PAC	ECM fan array solution for custom air handlers and retrofit applications.
RAE COILS	Standard and custom coils including hot and chilled water, steam, dx, and heat pump. Run-around loop solutions too.
RENEWAIRE	Packaged ventilation, energy recovery and dedicated outdoor air units.

BELLEVUE OFFICE

SUPERIOR RADIANT HEATERS	Gas & electric radiant heater.
SYSTECON	Factory assembled, modularized pump packages, central chilled water, and co-gen plants. Systecon will design and build central plant systems complete with chillers, cooling towers, boilers, piping, pumps, and central plant controls.
TAMCO	The leader in innovative damper design. They are the first manufacturer to offer a thermally insulated line of products. They are the only maintenance-free dampers available on the market.
TECHNICAL SYSTEMS	Standard and custom chilling and heat pump solutions. Air-to-water and DX splits. Chillers, Condensers, Condensing Units, and Fluid Coolers.
TEMTRON	Line of custom air handling units, fan coil units and triple deck multi-zone units featuring FC, plenum fan and Fanwall Technology.
THERMAL CORPORATION	Custom air handling units, fan coils, air cooled condensers, air columns and blower coils.
UV RESOURCES	Full line of UV-C products for the HVACR industry.
VENMAR	Custom energy and heat recovery ventilators and integrated air handling units. Options include Fanwall Technology, enthalpy wheels, plate heat exchangers, and heat pipe technology.
VENTROL	Comprehensive range of air handling solutions utilizing integrated frame construction, modular configurations or knock-down units for field assembly where required.
ZEHNDER RITTLING	Hydronic heating, radiant heating and cooling.

Control Product Group

DANFOSS	World renowned for superior quality, service and price, Danfoss produces a complete line of variable frequency drives for fans and pumps in HVAC applications. Our local support ensures successful projects every time.
EBTRON	Precise control of air flow rates is essential for the successful operation of today's high performance buildings. Ebtron thermal dispersion airflow measurement products provide the accuracy, repeatability and reliability necessary to ensure that these objectives are satisfied and maintained.
MSA	As the world's largest safety company, MSA provides the best gas and refrigerant leak detection equipment, featuring very stable and highly selective photo-acoustic infrared detection technology.
ONICON	ONICON manufactures highly accurate flow meters and energy measurement systems (BTU meters) for water, steam and gas, which are ideally suited for HVAC, municipal water and process applications.
SAGE	Sage Metering manufactures high performance mass flow meters which measure the flow rate and consumption of gases. Frequently used for energy management as well as for regulatory compliance.
TSI	TSI is acknowledged as the industry leader in controls for Hospital Isolation Rooms, Fume Hood Control, and Laboratory Room Pressure Control.
