

**AirReps has unparalleled access to many of the world’s leading HVAC manufacturers and their unique technologies.**

<b>AAF FLANDERS</b>	Advanced filtration including extended media cartridges, HEPA, carbon, gas-phase BIBO and other specialty filter containment housings.
<b>ABOVEAIR</b>	Mission Critical Equipment for precision cooling equipment. It provides the flexibility that today’s 7x24 mission critical applications demand.
<b>ABSOLUTAIRE</b>	Custom direct fired industrial heater and make-up air units.
<b>ACME</b>	Acme Fan Company, officially Acme Engineering and Manufacturing Corporation, is a U.S.-based company that designs, tests, and manufactures a wide range of fans, blowers, and ventilation systems for commercial, industrial, agricultural, horticultural, and OEM applications.
<b>ACT</b>	ACT Advanced Cooling Technologies, is a premier thermal management solutions company. They specialize in providing performance and cost optimized thermal management technologies for diverse markets to meet unique needs. Air to Air heat pipe heat exchanger products are energy efficient options for HVAC systems and industrial processes.
<b>ADDISON</b>	Semi-custom, packaged units from 3 to 70 tons and 500 to 20,000 CFM, including, packaged air or water source heat pumps, water-to-water units, split-system air handlers and condensing units.
<b>BACHARACH</b>	Advanced refrigerant monitoring for VRF systems and indoor chiller room applications.
<b>BALTIMORE AIRCOIL COMPANY</b>	Cooling towers, fluid coolers hybrid towers and ice storage systems.
<b>BERNER INTERNATIONAL</b>	Architectural, commercial and industrial air doors and curtains.
<b>BLENDER PRODUCTS</b>	Engineered air-mixing solutions that eliminate freeze-stat trips, frozen coils, and stratification while improving coil and filter performance - all without requiring additional AHU footprint.
<b>BLUE DUCT</b>	Underground self insulated duct system that is durable and problem-free. Engineered to protect against corrosion, mold/mildew, radon, rust and air leaks.
<b>BRASCH</b>	Electric heaters.
<b>CDI</b>	Custom roof curbs and retrofit curb adapters available with integral vibration isolation and/or seismic conformance.
<b>CGC</b>	Hybrid heat pumps in many configurations such as vertical stack, classroom, console and horizontal ceiling units.
<b>CLIMATE WIZARD</b>	Indirect evaporative air conditioning products for commercial and industrial use.
<b>COIMA USA</b>	Dust and Paint collection systems (including devices and ducting systems).
<b>CONDAIR</b>	Complete line of humidification equipment including electric, gas, steam and adiabatic cooling systems (formerly Nortec).
<b>DADANCO</b>	Active chilled beams, induction units, and infusers.

**OUR PRODUCTS**

As a leader in commercial HVAC design and engineering, AirReps can connect you with the industry’s leading manufactures and cutting-edge technologies to match your project’s needs and requirements.

## SPOKANE OFFICE

<b>DAIKIN APPLIED</b>	Complete line of commercial HVAC products from 3-2700 tons including rooftop systems, water source heat pumps, custom air handling units and water chillers.
<b>DAIKIN AIR COMFORT</b>	Variable Refrigerant Volume systems available for air and water-cooled applications; unified heat recovery or heat pump condensing units with inverter compressors with duct free and ducted fan coil options. Complete line of mini splits.
<b>DYNAMIC AIR</b>	High-efficiency filtration utilizing non-ionizing, polarized media.
<b>EASYWATER</b>	Low chemical and NO chemical water treatment solutions for all water system types including: domestic hot water, closed loop heating and cooling water, open loop condenser water systems, sediment collection, softeners, and Reverse Osmosis.
<b>EPIC FANS</b>	High volume, low speed area ceiling fans.
<b>FLOW CONTROL INDUSTRIES</b>	High performance pressure-independent control valves ranging from ½" to 8".
<b>GOVERNAIR</b>	Custom air handlers and DX refrigeration utilizing evaporative, air and water-cooled condensing ranging from 60 to 1000 tons.
<b>HAYS</b>	Valves and valve kits.
<b>HUNTAIR</b>	Custom air handlers that incorporate Fanwall Technology for greater flexibility and increased fan efficiencies.
<b>HUNTER INDUSTRIAL FANS</b>	High volume, low speed paddle fans with gearless direct drive motors, constructed with aerospace lightweight materials.
<b>JAGA</b>	Trench heating and cooling, convectors, and fan coils.
<b>JETSON BY MODINE</b>	Offers scalable, all-electric cooling and heating solutions designed for flexibility and efficiency. Their modular chillers and heat pumps suit both new builds and retrofits, backed by Modine's trusted engineering and innovation.
<b>KELVION</b>	Plate, shell and tube, finned tub and refrigeration heat exchangers and modular cooling towers.
<b>KOCH FILTERS</b>	Air filtration including pleated, extended media cartridges, HEPA, carbon, gas-phase and specialty filter containment housings.
<b>LAKOS</b>	Centrifugal separators, sand filters and water filtration systems.
<b>MAMMOTH</b>	Custom rooftop heating and AC units up to 1200 tons with air, water and evaporative cooled condensing.
<b>MAS</b>	Custom air handlers.
<b>MODINE</b>	Gas fired, steam and electric make-up air and heating equipment.
<b>MOTIVAIR</b>	Designs and manufactures a portfolio of specialty chillers and high-density computer cooling systems.
<b>MUNTERS</b>	Line of custom heat recovery air handling equipment including heat pipes, heat wheels and make-up air units.
<b>NAILOR INDUSTRIES</b>	VAV, fan-powered, and induction boxes, horizontal and vertical fan coils, fire, smoke, and air control dampers, louvers, grills, grates, and diffusers.

## SPOKANE OFFICE

<b>NYLE WATER HEATING SYSTEMS</b>	Nyle has been offering 40 years of experience building potable water heat pumps. Nyle can provide heat pump water heater solutions for any size building.
<b>OXYGEN8</b>	Indoor low profile DOAS solutions.
<b>PHP SYSTEMS</b>	Pipe support systems and VRV equipment supports.
<b>POOLPAK</b>	Pool ventilation and heat recovery systems designed to control pool water temperature and space comfort conditions.
<b>Q-PAC</b>	ECM fan array solution for custom air handlers and retrofit applications.
<b>QMARK</b>	Air Circulators and baseboard, unit, portable, and wall heaters.
<b>RAE COILS</b>	Standard and custom coils including hot and chilled water, steam, dx, and heat pump. Run-around loop solutions too.
<b>RENEWAIRE</b>	Packaged ventilation, energy recovery and dedicated outdoor air units.
<b>SUPERIOR RADIANT HEATERS</b>	Efficient indoor and outdoor infrared heaters.
<b>TAMCO</b>	The leader in innovative damper design. They are the first manufacturer to offer a thermally insulated line of products. They are the only maintenance-free dampers available on the market.
<b>TECHNICAL SYSTEMS</b>	Standard and custom chilling and heat pump solutions. Air-to-water and DX splits. Chillers, Condensers, Condensing Units, and Fluid Coolers.
<b>TEMTRON</b>	Line of custom air handling units, fan coil units and triple deck multi-zone units featuring FC, plenum fan and Fanwall Technology.
<b>THERMAL CORPORATION</b>	Custom air handling units, fan coils, air cooled condensers, air columns and blower coils.
<b>UNITED COOL AIR</b>	Full-service provider of custom HVAC systems utilizing the latest technologies.
<b>UV RESOURCES</b>	Full line of UV-C products for the HVACR industry.
<b>VENMAR</b>	Custom energy and heat recovery ventilators and integrated air handling units. Options include Fanwall Technology, enthalpy wheels, plate heat exchangers, and heat pipe technology.
<b>VENTROL</b>	Comprehensive range of air handling solutions utilizing integrated frame construction, modular configurations or knock-down units for field assembly where required.
<b>VIBRO ACOUSTICS</b>	Complete line of standard and custom vibration isolators, seismic restraint systems and floating floors.
<b>ZEHNDER RITTLING</b>	Hydronic heating, radiant heating and cooling.

**Control Products Group**

<b>DANFOSS</b>	World renowned for superior quality, service and price, Danfoss produces a complete line of variable frequency drives for fans and pumps in HVAC applications. Our local support ensures successful projects every time.
<b>EBTRON</b>	Precise control of air flow rates is essential for the successful operation of today's high performance buildings. Ebtron thermal dispersion airflow measurement products provide the accuracy, repeatability and reliability necessary to ensure that these objectives are satisfied and maintained.
<b>MSA</b>	As the world's largest safety company, MSA provides the best gas and refrigerant leak detection equipment, featuring very stable and highly selective photo-acoustic infrared detection technology.
<b>ONICON</b>	ONICON manufactures highly accurate flow meters and energy measurement systems (BTU meters) for water, steam and gas, which are ideally suited for HVAC, municipal water and process applications.
<b>SAGE</b>	Sage Metering manufactures high performance mass flow meters which measure the flow rate and consumption of gases. Frequently used for energy management as well as for regulatory compliance.
<b>TSI</b>	TSI is acknowledged as the industry leader in controls for Hospital Isolation Rooms, Fume Hood Control, and Laboratory Room Pressure Control.

**BELLEVUE OFFICE**
